EXPERIENCE

IT Idol Technologies

Jan 2026 – May 2026

Software Developer Intern - ReactJS

Valsad Gujarat

- Working on a live **Inventory and Ticketing Management System** project using ReactJS and TailwindCSS.
- Developed responsive and reusable ReactJS component to improve dashboard usability and workflow management.
- Collaborating with the development team to integrate frontend interfaces with backend APIs for real-time data handling.

Enjay IT Solutions

July 2025 – July 2025

Software developer Intern - Web developer

Bhilad Gujarat

- Developed and maintained dynamic web pages with form handling, CRUD operations, and data validation features.
- Worked on web application development using **PHP** and MySQL for backend functionality and database management.

PROFILE

Passionate ReactJS Developer with 6 months of internship experience in building responsive, scalable, and user-friendly web applications. Skilled in ReactJS, TailwindCSS, JavaScript, REST API integration. Familiar with PHP, MySQL, and Java, with an interest in full-stack web development.

SKILLS

Languages : JavaScript , TypeScript, PHP , HTML , CSS, SQL (MySQL)

Frameworks / libraries : ReactJS, React Native, Tailwind CSS, Bootstrap

Tools : Git, GitHub, Postman, VS Code, Figma, Chrome DevTools, Netlify, Vercel

PROJECTS

Inventory and Ticketing Management System

- Developed responsive and user-friendly frontend interfaces using ReactJS and Tailwind CSS for inventory tracking and support ticket management.
- Integrated frontend with backend APIs to manage inventory records, support tickets, and status updates seamlessly.
- Built reusable React components and optimized UI responsiveness for better user experience across devices.

Global Explorer Dashboard

- Developed an interactive dashboard using ReactJS to fetch and display real-time country data from REST APIs.
- Displayed country details such as flags, capitals, population, and region with efficient API data handling.
- Implemented dynamic features including country search, filtering, and responsive card-based UI for improved user experience.

Job Portal Dashboard

- Developed a responsive job portal application with secure login and logout functionality using ReactJS.
- Implemented localStorage-based authentication and managed global state efficiently using React Context API.
- Integrated REST APIs to fetch and display dynamic job posting data on the dashboard in real time.
- Built detailed job description pages with React Router for seamless navigation and improved user experience.

Product Management System

- Developed an interactive dashboard to display and manage product data in a structured table format.

- Implemented CRUD operations including creating, updating, and deleting products.
- Integrated toast notifications to provide user feedback for product creation, update, and deletion actions.
- Implemented responsive table layouts and optimized user interactions for better dashboard experience.

PHP CRUD Application

- Developed a web application using PHP and MySQL to perform CRUD (Create, Read, Update, Delete) operations.
- Built user-friendly forms for adding, editing, deleting, and viewing data with proper validation.
- Integrated frontend interfaces with backend logic to ensure smooth data flow and functionality.

EDUCATION

Laxmi Institute of Technology <i>Bachelor of Engineering</i>	Sept. 2022 – May 2026 Sarigam Gujarat
RPS Public School <i>12th</i>	July 2020 – March 2022 Muzaffarpur Bihar
DAV Public School <i>10th</i>	April 2019 – March 2020 Muzaffarpur Bihar
